

Staying After Class

We asked students from Shanghai Community International School (SCIS), Pudong, to tell us which after-school activities they're excited about this year.

Rebekkah Condon, 10, Grade 5

Activity: Girl Scouts

"We do projects to help people, like donating beds to dogs in the shelter. This year, we're going to work on more badges, like the Bronze Award; we chose to make a website for girls around the world to meet new people."

Jackson Larew, 9, Grade 4

Activity: Dodgeball

"You get to throw balls and catch and dodge them. I'm good at throwing at a target. This year, I want to work on catching."

Gabin Ronot, 9, Grade 4

Activity: Swimming

"I like being in the pool. I'm good at freestyle, but I want to work on breaststroke. It's hard!"

Connor Berkaw, 6, Grade 2

Activity: LEGO Club

"You can build amazing things, like hospitals and people. I also want to try LEGO Robotics – you have a remote control, and you can move it around."
